Evaluating A College Visit: Reflection

Names of people to remember & Contact Information (if possible):

Tour guide: _____

Admission Rep: _____

Financial Aid: _____

Professor: _____

Statistics:

Retention Rate: _____

Placement Rate: _____

Graduation Rate: _____

On average, how many years does it take to graduate? _____

First Impressions of the campus (Big, Small, buildings/structures maintained, campus growth/construction, lawns and landscape well maintained, location/proximity of dorms/class buildings/dining halls, what is the surrounding town like):

Academic Programs (strong majors, popular classes, classes I would love), including any special programs (Engineering, Architecture, dance, etc.)

Core or General Education requirements (foreign language, math, science); possibility of double majors or minor, pre-professional advising (pre-med, pre-law, pre-business), selecting courses/teachers, assigned academic advisor)

Safety of the school and surrounding town (what measures are put in place to provide safe transportation, safety of students in the evenings, etc.)

Quality of Campus Life (food, housing, social activities, community spirit, school spirit, community involvement, extra curriculars)

Career Counseling (Internships, co-ops, study abroad, finding jobs, available to alumni or only current students, etc.)

Admission Requirements (testing optional status, essays topics/supplemental essays, courses required, average GPA, average Sat score, letters or recommendation required)

My general impressions overall:

LIKES:

DISLIKES:

Rating scale for liking the college (1 being no longer want to apply/not on my college list and 10 being Definitely applying/Top 5 college choice)

1 2 3 4 5 6 7 8 9 10

Why give the school this number ranking?
